(2) Prior to and including 2000, the figures in this table excluded the container freight traffic of Taiwan Province and Kaohsiung City;

Prior to and including 1997, the figures also excluded the data of non-container tractors of Taiwan Province.

(3) The statistical coverage of Motor Carriers Traffic was amended with the "Highway Act", and Kinmen and Matsu area are included from 2014 onward. Besides, the methods of tonnage of Motor freight Traffic estimates are revised to the basis on the weights of carry freight, which means the weights of car are not included.

(1) Since 2004, bank reverse repos (RS) have been reclassified from "securities investment" to "deposits." The computation for Reduction of Direct Finance originally should not have included bank RS trade balance, but up to 2003, banks did not report RS related data, which is now untraceable. Hence, to ensure consistency with the 2003 comparison basis, from 2004 this item still excludes the bank RS transaction balance.

(5) Including unrealized liability of cash benefit before amendment and interest expenses. Article 5 of the GESSI Act, as amended on January 19, 2005, stipulates that all the surplus should be transferred to insurance reserve, so with effect from 2005, monthly provision is no longer made on the basis of insurance premium revenue and reference contribution rate.

(6) "Administrative Expense" was paid by the Central Supervisory institution - Ministry of Civil Service by means of budget. All unfunded expense was absorbed by our bank that assumes the role of insurance agency and implementing government policy.

In addition, to illustrate national feelings, the DGBAS has also compiled the Domestic Indicators, in accordance with the characteristics of life in Taiwan, as in part B of Table 16-2 to 16-12.
