Transmittal No. 22-44

**Taipei Economic and Cultural Representative Office in the United States –  
Contract Logistics Support for Surveillance Radar Program (SRP)**

WASHINGTON, September 2, 2022 - The State Department has made a determination approving a possible Foreign Military Sale to the Taipei Economic and Cultural Representative Office in the United States of Contract Logistics Support for the Surveillance Radar Program (SRP) and related equipment for an estimated cost of \$665.4 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Taipei Economic and Cultural Representative Office in the United States (TECRO) has requested to buy follow-on Contractor Logistics Support (CLS) for the Surveillance Radar Program (SRP); program management; minor modifications and upgrades; spares and repair/return parts; publications and technical documentation; and U.S. Government and contractor engineering, technical and logistics support services, studies and surveys, as well as other related elements of logistical and program support. The estimated total cost is \$665.4 million.

This proposed sale is consistent with U.S. law and policy as expressed in Public Law 96-8.

This proposed sale serves U.S. national, economic, and security interests by supporting the recipient's continuing efforts to modernize its armed forces and to maintain a credible defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region.

The proposed sale will improve the recipient's capability to meet current and future threats by ensuring continued operability of its Surveillance Radar Program (SRP), which provides improved situational awareness and threat warning capabilities critical to regional security. The recipient will have no difficulty absorbing these services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Technologies, Andover, MA. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale may require assignment of U.S. contractors to recipient in support of the technical refresh actions during the sustainment contract. The number of contractors and duration of assignment will be determined during contract negotiations. It is anticipated that this sale will not require assignment of additional U.S. Government representatives.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law. The description and dollar value is for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, [pm-cpa@state.gov](mailto:pm-cpa@state.gov).
