

Taiwan Statistical Data Book

2015

National Development Council

R.O.C. (Taiwan)

Preface

- I. The *Taiwan Statistical Data Book* is designed to give domestic and foreign readers concise statistical information on present-day Taiwan, Republic of China. The statistics cover demographic, economic, social, cultural and physical aspects. This book is produced only in English.
- II. To fully reflect the state of national well-being in Taiwan, with reference to the OECD's Your Better Life Index, The National Well-being Indicators were announced in August 2013 for the first time. It is hoped that, with the addition of The National Well-being Indicators chapter from 2014, this handbook will allow the public to acquire a full understanding of Taiwan's current social development situation.
- III. This book is also available in e-format on our website at <http://www.ndc.gov.tw>.

(1) See (1) of Table 7-1.

(2) Prior to and including 2000, the figures in this table excluded the container freight traffic of Taiwan Province and Kaohsiung City; Prior to and including 1997, the figures also excluded the data of non-container tractors of Taiwan Province.

The statistical coverage of Motor Carriers Traffic was amended with the "Highway Act", and Kinmen and Matsu area are included from 2014 onward. Besides, the methods of tonnage of Motor freight Traffic estimates are revised to the basis on the weights of carry freight, which means the weights of car are not included.

(1) Since 2004, bank reverse repos (RS) have been reclassified from "securities investment" to "deposits." The computation for Reduction of Direct Finance originally should not have included bank RS trade balance, but up to 2003, banks did not report RS related data, which is now untraceable. Hence, to ensure consistency with the 2003 comparison basis, from 2004 this item still excludes the bank RS transaction balance.

Note: From Jan. 2006, the Compilation of Customs Trade Statistics adopts the United Nations' International Merchandise Trade Statistics (IMTS) Compilers Manual, 2004. Under IMTS Criteria, the data of re-exports and re-imports of each classification are included in their relevant total exports/imports, respectively. The historical data before 2005 have been revised on this table.

Note: (1)The figures in Tables 13-1 to 13-12 cover Taiwan, Kinmen and Matsu.

(2)After the "Early Childhood Education and Care Act" came into effect on January 1, 2012, kindergartens and child-care centers have been administered as preschools. Data for preschools prior to the school year 2011 is only that for kindergartens.

(3)The Senior High School Education Act has come into effect on August 1,2014. Senior secondary continuing schools and evening divisions should be transformed into Continuing Education affiliated to senior secondary school after this Act has implemented.

Therefore, the senior secondary continuing schools should be contributed to the number of the senior high school.

(1) Since the school year 1983, curricula in Taiwan's institutions of higher learning have been organized according to UNESCO standards.

(2) Students studying abroad without government scholarships have been excluded since July 1989.

(3) The figures for 1990-1999 refer to the number of students passing government scholarship examinations and studying abroad, while the figures for 2000 and since only refer to the number of students awarded government scholarships to study abroad.

(1) No new policies were issued under Insurance for Retired Teaching and Administrative Staff of Private Schools as from July 1985. Old policy-holders as well as the newly retired can take out policies issued under HIRTASPS.

(2) HIRGE, HISRGE, HIRTASPS and HISRTASPS were integrated as HIRETDGOPS from April 1, 1994.

(3) After the implementation of National Health Insurance on March 1, 1995, the administration of medical care benefits provided by all the policies was transferred to the Bureau of National Health Insurance while the Government Employee Insurance Department still implements the enrollment and cash benefits of the GEI, ITASPS and RGEI.

(4) Government Employee Insurance (GEI) and Insurance for Teaching and Administrative Staff of Private Schools (ITASPS) were integrated as Government Employee and School Staff Insurance (GESSI) from May 31, 1999. For data on these programs from 1999 onward, please refer to Tables 15-11 to 15-15.

(4) Surpluses are transferred to reserve.

(5) Including unrealized liability of cash benefit before amendment and interest expenses. Article 5 of the GESSI Act, as amended on January 19, 2005, stipulates that all the surplus should be transferred to insurance reserve, so with effect from 2005, monthly provision is no longer made on the basis of insurance premium revenue and reference contribution rate.

(6) "Administrative Expense" was paid by the Central Supervisory institution - Ministry of Civil Service by means of budget. All unfunded expense was absorbed by our bank that assumes the role of insurance agency and implementing government policy.

(7) Since 2013 began to adopt International Financial Reporting Standards (IFRSs).

*To compare people's well-being with other countries, the Directorate-General of Budget, Accountant and Statistics (DGBAS) adopted the framework of Your Better Life Index issued by OECD to compile the International Indicators of our National Well-being Indicators, as shown in part A of Table 16-2 to 16-12, including 11 topics and 24 indicators. In addition, to illustrate national feelings, the DGBAS has also compiled the Domestic Indicators, in accordance with the characteristics of life in Taiwan, as in part B of Table 16-2 to 16-12. As for the International Indicators, an overall index is calculated by equal weighting, while the Domestic Indicators are demonstrated by 40 individual indices (since 2014, "Real earnings" and "Foodborne Illness" are new-adopted indicators to respond to social concern), not by an overall index.
